How to reallocate your fund holdings

You may take either or both of the following actions.

Switching existing funds

To switch money out of existing funds, please insert the percentage amount you wish to switch out, in the 'Switch existing funds out' column of the fund(s) you wish to move money out of. This should be as a percentage of the individual fund(s) holdings. For example, if you wished to disinvest entirely from a particular fund, the percentage amount shown for this fund should be 100%.

You will then need to enter a percentage amount into the 'Switch exiting funds in' column of the new fund(s) you wish to switch into. Note that some funds are closed to new investments – as shown in **red**. The sum of the amounts in the 'Switch existing funds in' column should equal 100% as this is a percentage of the value you are requesting to transfer out.

If a fund is closed, you cannot transfer funds in, but you are still able to transfer out funds to another manager with open funds.

Directing future contributions to new funds

To do this you will need to enter the percentage of your future contributions you wish to direct to each fund in the column headed 'Percentage of future contributions to this fund'. The percentages must add up to 100%.
