Engagement Policy Implementation Statement ("EPIS")

Snamprogetti Limited Retirement Benefits Scheme (the "Scheme")

Scheme Year End – 31 December 2024

The purpose of the EPIS is for us, the Trustee of the Snamprogetti Limited Retirement Benefits Scheme, to explain what we have done during the year ending 31 December 2024 to achieve certain policies and objectives set out in the Statement of Investment Principles ("SIP"). It includes:

- 1. How our policies in the SIP about asset stewardship (including both voting and engagement activity) in relation to the Scheme's investments have been followed during the year; and
- 2. How we have exercised our voting rights or how these rights have been exercised on our behalf, including the use of any proxy voting advisory services, and the 'most significant' votes cast over the reporting year.

Our conclusion

Based on the activity we have undertaken during the year, we believe that the policies set out in the SIP have been implemented effectively.

In our view, most of the Scheme's material investment managers were able to disclose good evidence of voting and/or engagement activity, and the activities completed by our investment managers align with our stewardship expectations.

We delegate the management of some of the Scheme's assets to our fiduciary manager, Aon Investments Limited ("Aon" or "AIL"). We believe the activities completed by our fiduciary manager to review the underlying investment managers' voting and engagement policies, and activities align with our stewardship expectations. We believe our voting rights have been implemented effectively on our behalf.

Where management is not delegated to our fiduciary manager, we monitor the stewardship activities of the relevant managers through our investment adviser – the advisory team at Aon.

How voting and engagement policies have been followed

The Scheme is invested entirely in pooled funds, and so the responsibility for voting and engagement is delegated to the Scheme's investment managers, which is in line with the policies set out in our SIP.

We reviewed the stewardship activity of the material investment managers carried out over the Scheme year and in our view, most of the investment managers were able to disclose good evidence of voting and/or engagement activity. More information on the stewardship activity carried out by the Scheme's investment managers can be found in the following sections of this report.

Over the reporting year, we monitored the performance of the Scheme's investments on a quarterly basis and received updates on important issues from our investment adviser, Aon Investments Limited ("Aon"). In particular, we received quarterly ESG ratings from Aon for the funds the Scheme is invested in where available.

Each year, we review the voting and engagement policies of the Scheme's investment managers to ensure they align with our own policies for the Scheme and help us to achieve them.

The Scheme's stewardship policy can be found in the SIP: https://pensioninformation.aon.com/snamprogetti/fileviewer.aspx?FileID=14063 &FileName=Snamprogetti%20SIP January%202024 FINAL.pdf

What is stewardship?

Stewardship is investors using their influence over current or potential investees/issuers, policy makers, service providers and other stakeholders to create long-term value for clients and beneficiaries leading to sustainable benefits for the economy, the environment and society.

This includes prioritising which Environmental Social Governance ("ESG") issues to focus on, engaging with investees/issuers, and exercising voting rights.

Differing ownership structures means stewardship practices often differ between asset classes.

Source: UN PRI

Our fiduciary manager's engagement activity

We invest some of the Scheme's assets in Aon's Low Risk Bonds Strategy and Managed Growth Strategy. These are fund of funds arrangements, where Aon selects the underlying investment managers on our behalf.

We delegate monitoring of ESG integration and stewardship of the underlying managers to Aon. We have reviewed Aon's latest annual Stewardship Report (2023/24) and we believe it shows that Aon is using its resources to effectively influence positive outcomes in the funds in which it invests.

Over the year, Aon held several engagement meetings with many of the underlying managers in its strategies. Aon discussed ESG integration, stewardship, climate, biodiversity and modern slavery with the investment managers. Aon provided feedback to the managers after these meetings with the aim of improving the standard of ESG integration across its portfolios.

In 2021, Aon committed to achieve net zero emissions by 2050, with a 50% reduction by 2030 for its fully delegated clients' portfolios and defined contribution default strategies (relative to baseline year of 2019). In June 2024 Aon issued their first annual TCFD aligned climate disclosures report. The report sets out the four TCFD pillars, summarising AIL's approach to climate risk management and mitigation. Their TCFD disclosures detail their climate beliefs and summarise how they integrate climate considerations into their fiduciary portfolios. Their report can be found here: https://www.aon.com/getmedia/149615bc-c35a-4ee1-9ff6-aac935bc10b6/Aon-Investments-Ltd-2023-TCFD-report.pdf

Aon is a signatory to the UK Stewardship Code, which is a voluntary code established by the Financial Reporting Council that sets high standards on stewardship for asset owners, investment managers and service providers.

What is fiduciary management?

Fiduciary management is the delegation of some, or all, of the day-to-day investment decisions and implementation to a fiduciary manager. But the trustees still retain responsibility for setting the high-level investment strategy.

In fiduciary management arrangements, the trustees will often delegate monitoring ESG integration and asset stewardship to its fiduciary manager.

Our managers' voting activity

Good asset stewardship means being aware and active on voting issues, corporate actions and other responsibilities tied to owning a company's stock. We believe that good stewardship is in the members' best interests to promote best practice and encourage investee companies to access opportunities, manage risk appropriately, and protect shareholders' interests. Understanding and monitoring the stewardship that investment managers practice in relation to the Scheme's investments is an important factor in deciding whether an investment manager remains the right choice for the Scheme.

Voting rights are attached to listed equity shares, including equities held in multi-asset funds. We expect the Scheme's equity-owning investment managers to responsibly exercise their voting rights.

Why is voting important?

Voting is an essential tool for listed equity investors to communicate their views to a company and input into key business decisions. Resolutions proposed by shareholders increasingly relate to social and environmental issues.

Voting statistics

The table below shows the voting statistics for each of the Scheme's material funds with voting rights for the year to 31 December 2024.

Funds	Number of resolutions eligible to vote on	% of resolutions voted	% of votes against management	% of votes abstained from
Legal and General Investment Management ("LGIM") - Multi- Factor Equity Fund*	11,565	99.6%	20.8%	0.4%
UBS Global Asset Management ("UBS") - Global Equity Climate Transition Fund*	12,145	93.0%	8.0%	0.1%

Source: Investment managers. Please note that the 'abstain' votes noted above are a specific category of vote that has been cast and are distinct from a non-vote.

Use of proxy voting advisers

Many investment managers use proxy voting advisers to help them fulfil their stewardship duties. Proxy voting advisers provide recommendations to institutional investors on how to vote at shareholder meetings on issues such as climate change, executive pay and board composition. They can also provide voting execution, research, record keeping and other services.

Responsible investors will dedicate time and resources towards making their own informed decisions, rather than solely relying on their adviser's recommendations.

The table below describes how the Scheme's investment managers use proxy voting advisers.

Why use a proxy voting adviser?

Outsourcing voting activities to proxy advisers enables managers that invest in thousands of companies to participate in many more votes than they would without their support.

Managers	Description of use of proxy voting advisers
wanayers	(in the managers' own words)
LGIM	LGIM's Investment Stewardship team uses ISS's 'ProxyExchange' electronic voting platform to
	electronically vote clients' shares. All voting decisions are made by LGIM and we do not outsource
	any part of the strategic decisions. To ensure our proxy provider votes in accordance with our
	position on ESG, we have put in place a custom voting policy with specific voting instructions.
	UBS retains the services of Institutional Shareholder Services ("ISS") for the physical exercise of
UBS	voting rights and for supporting voting research. UBS retains full discretion when determining how
	to vote at shareholder meetings.

Significant voting examples

To illustrate the voting activity being carried out on our behalf, we asked the Scheme's investment managers to provide a selection of what they consider to be the most significant votes in relation to the Scheme's funds. A sample of these significant votes can be found in the appendix.

Our managers' engagement activity

Engagement is when an investor communicates with current (or potential) investee companies (or issuers) to improve their ESG practices, sustainability outcomes or public disclosure. Good engagement identifies relevant ESG issues, sets objectives, tracks results, maps escalation strategies and incorporates findings into investment decision-making.

The table below shows some of the engagement activity carried out by the Scheme's material investment managers. The managers have provided information for the most recent calendar year available.

Funds	Number of engagements		T	
runus	Fund level	Firm level	Themes engaged on at a fund level	
LGIM - Multi-Factor Equity Fund	682	Not provided	Environment - Climate Impact Pledge Social - Human Rights Governance - Capital Management; Remuneration Other - Corporate Strategy	
UBS - Global Equity Climate Transition Fund	174	425	Environment - Climate Change Governance - Remuneration; Board Effectiveness - Other; Leadership - Chair/CEO Strategy, Financial & Reporting - Capital Allocation	
Abrdn - Climate Transition Bond Fund	104	1,868	Environment - Climate; Other Environment Related Social - Human Rights & Stakeholders Governance - Corporate Governance; Corporate Behaviour	
Robeco - Sustainable Development Goals ("SDG") Credit Income Fund	12	324	Environment - Climate Change Social - Human and Labour Rights Governance - Shareholder Rights; Board Effectiveness - Other	
Aegon Asset Management ("Aegon") - European Asset Backed Securities ("ABS") Fund	115	422	Environment - Climate Change Social - Human and Labour Rights Governance - Leadership - Chair/CEO; Remuneration Other - General Disclosure	
Royal London Asset Management ("RLAM") - Absolute Return Government Bond Fund	33	710	Environment - Climate Transition Risk Social - Just Transition; Mental Health; Financial Inclusion Governance - Remuneration

Data limitations

At the time of writing, LGIM provided a list of engagements for the invested fund, however this did not include as much detail as recommended in the best practice industry standard Investment Consultants Sustainability Working Group ("ICSWG") reporting guide. LGIM will provide further engagement information in line with the ICSWG reporting guide, after it publishes its annual stewardship report. LGIM's firm-level engagement information will also be available when its annual report is published. Aon will continue to work with the managers to improve reporting disclosures over time.

This report does not include commentary on certain asset classes such as liability driven investments, synthetic credit or cash] because of the limited materiality of stewardship to these asset classes. Further, this report does not include the additional voluntary contributions ("AVCs") due to the relatively small proportion of the Scheme's assets that are held as AVCs.

.

Appendix – Significant Voting Examples

In the table below are some significant vote examples provided by the Scheme's investment managers. We consider a significant vote to be one which the investment manager considers significant. Managers use a wide variety of criteria to determine what they consider a significant vote, some of which are outlined in the examples below:

Equity Fund* Date of vote	LGIM - Multi-Factor	Company name	Microsoft Corporation	
Summary of the resolution Resolution 9: Report on Al Data Sourcing	Equity Fund*		•
